> Alfred Richter Eyewitness

It was September, 1943. Italian soldiers, sent by their government to occupy the <u>Greek island</u> of <u>Cephalonia</u> (Kefalonia) in the <u>Ionian Sea</u>, were without orders.

<u>Benito Mussolini</u>, whose dream of an Italian empire included <u>Greece</u>, was no longer *II Duce*, "the <u>leader</u>" of his country. An <u>Armistice</u> between Italy and the Allies meant the Rome-Berlin Pact, signed by Hitler and Mussolini before the start of World War II, was history.

The Fuhrer, in an effort to keep Greece under <u>his control</u>, sent German soldiers to <u>Cephalonia</u>. Before the Armistice, those soldiers would have fought *with* the Italians. Now about 11,500 Italian soldiers were in a quandary.

Should they surrender? Fight against the Germans? Join forces with Greek resistance fighters? Without orders, the men decided for themselves. They would fight.

What happened to them, according to the German newspaper <u>Suddeutsche Zeitung</u>, was covered up for more than 50 years.
