W. A. (William Allen) Rogers created this political cartoon after Congress passed the Sedition Act in 1918. Entitled "Now for a Round-up," the artist shows Uncle Sam (personification of the U.S. federal government) going after "Spy," "Traitor," "IWW," "German money" and "Sinn Fein." His authority to make these arrests is noted on the flag: "Sedition Law Passed." Click on the image to enlarge it. Online, courtesy <u>Library of</u> <u>Congress</u>.

> The most stringent protection of free speech would not protect a man in falsely shouting fire in a theatre and causing a panic.

> > Oliver Wendell Holmes Schenck v United States March 3, 1919

It was a time of extreme turmoil. The world was <u>at war</u> for the first time.

The precipitating event occurred in Bosnia, when a Serb (Gavrilo Princip) assassinated the heir to the Austro-Hungarian throne (Archduke Ferdinand). Following that June 28, 1914 event, countries (mostly governed by cousins from the same family) lined up on opposite sides and, in a domino effect, the <u>Guns of August</u> erupted on the European continent.

Eight months later, in the spring of 1915, a German U-boat <u>sank</u> the <u>Lusitania</u>, killing thousands of innocent civilians. Germany's warnings, against sea passage in the waters surrounding the British Isles, had gone unheeded.

Meanwhile, as starving Russians grew increasingly upset with their country's involvement in the war, <u>Vladimir</u> <u>Lenin</u> spread the concept of <u>socialism</u> and a "worker's state," based on <u>Marxist</u> thought. He and his <u>Bolshevik</u> <u>comrades</u> comrades engineered Russia's October Revolution of 1917.

Nicholas II, the Russian Tsar earlier forced to abdicate the throne his Romanov family had held for hundreds of years, would soon meet an unspeakable fate. So would his wife and children.

Against this backdrop of fear and uncertainty, the United States Congress passed the Espionage and Sedition Acts of 1917 and 1918 respectively. Free speech in America, guaranteed by the First Amendment to the country's Constitution, would soon be put to the test.

Vladimir Lenin

Leader of the Bolshevik Revolution, in Russia, Vladimir I. Lenin became the <u>first head of the</u> <u>Soviet Union</u>.

With Russians (including <u>fighting troops</u> initially inspired by their Tsar) exhausted by the demands of World War I, and demonstrations occurring—like the <u>massive Nevsky Prospect</u> gathering in St Petersburg (Petrograd) during July of 1917—Lenin and his comrades were able to persuade enough individuals to follow <u>the Bolshevik political ideology</u>. This led to the "October Revolution" in 1917.

One of the first things which the Bolsheviks did, when they assumed power, was to end Russia's involvement in WWI. No longer would <u>the Tsar</u> ever lead troops or have <u>his</u> <u>soldiers</u> support the status quo (as they did during the February Revolution of 1917). During Lenin's time in power, the Last Tsar—Nicholas II—together with his wife and children—were executed in July of 1918.

Lenin was not-quite 54 years old when he had a massive stroke, and died, on the 21st of January, 1924. To this day, <u>his death puzzles doctors</u>, and who he was - as a man - is still <u>somewhat of a mystery</u>.

Very few recordings of <u>Lenin's voice</u> survive. Although he introduced sweeping changes, and those changes caused misery for many people, Lenin was still <u>widely mourned when</u> <u>he died</u>.
