During the night of 20–21 June, in 1791, the immediate royal family tried to escape Paris. They didn't get far. Having been recognized during a stop in Sainte-Menehould, they were apprehended and arrested at Varennes. They had <u>traveled</u>, <u>by carriage</u>, <u>around 250 km</u> (155 miles). The King's effort to escape would be a significant factor held against him during his trial. A century later, *The Illustrated London News* (on January 18, 1896) published an illustration called "The Arrest of Louis XVI. and Marie Antoinette at Varennes." It was based on a picture by M. Georges Roussin. Click on the image for a full-page view.

After the revolution began, it seems the king never doubted he would be killed. The question was: How would it happen? Hearing rumors that an assassin would end his life when France celebrated the third anniversary of the <u>Bastille's fall</u>, Louis told Madame Campan:

...they will not assassinate me; their scheme is changed; they will put me to death another way.

Of one thing the king was sure. He did not want to repeat the mistakes of Charles I, the British monarch who lost his head to an axe during the English Civil War. Antoinette discussed this with her assistant:

...he had long since observed to her [the queen] that all which was going forward in France was an imitation of the revolution in England in the time of Charles I, and that he was incessantly reading the history of that unfortunate monarch in order that he might act better than Charles had done at a similar crisis. "I begin to be fearful of the King's being brought to trial," continued the Queen; "as to me, I am a foreigner; they will assassinate me. What will become of my poor children?" (Campan, Book 6, Chapter 7 - scroll down 75%.)

On the 11th of December, 1792—while the king and his family, including his sister Elizabeth, were confined in different quarters of the Temple Prison—Louis was indicted for all sorts of crimes. Revolutionaries argued about whether he should be given a trial. (What would happen to the revolution if the king, for example, were found innocent?)

<u>A trial</u> did <u>take place</u>, with Louis <u>defended</u> by the respected lawyer Malesherbes, but the <u>charges</u> were specious and the evidence slim. Nonetheless, <u>judgment against him</u> was a foregone conclusion. No one voted in his favor.

However, the King's sentence was not as close as one might think. When the final vote was taken on the 19th of January, 1793, Louis XVI—at the time referred to as "Citizen Capet"—was condemned by a vote of 380 to 310.

<u>Louis</u> was <u>sentenced</u> to death by guillotine.

The King spent time with his family, at Temple Prison, the day before he died. Although he promised to see them again the following morning, he couldn't make himself go through the pain of another parting.

The former monarch asked for <u>Henry Essex Edgeworth de Firmont</u>, an Irish cleric whose family had moved to France, to be his spiritual advisor and <u>confessor</u> during his <u>final hours</u>. Edgeworth wrote an account of the

## January 21, 1793 execution:

The steps that led to the scaffold were extremely steep in ascent. The king was obliged to hold to my arm, and by the pains he seemed to take, feared that his courage had begun to weaken; but what was my astonishment when, upon arriving at the last step, I saw him escape, so to speak, from my hands, cross the length of the scaffold with firm step to impose silence, by a single glance, upon ten or fifteen drummers who were in front of him, and with a voice so strong that it could be heard at the Pont-Tournant, distinctly pronounce these words forever memorable: "I die innocent of all the crimes imputed to me. I pardon the authors of my death, and pray God that the blood you are about to shed will never fall upon France."

The <u>executioners</u> seized him, the knife struck him, his head fell at fifteen minutes after ten. The executioners seized it by the hair, and showed it to the multitude, whose cries of "Long live the Republic!" resounded to the very bosom of the Convention, whose place of meeting was only a few steps from the place of execution.

<u>Thus died</u>, at the age of thirty-eight years, four months, and twenty-eight days, Louis, sixteenth of his name, whose ancestors had reigned in France for more than eight hundred years.

Immediately after the execution, the body of Louis was transported to the cemetery of the ancient Church of the Madeleine. It was placed in a pit six feet square, close to the wall of the Rue d'Anjou, and dissolved instantly by a great quantity of quicklime with which they took the precaution to cover it.

In ten months, Marie Antoinette would meet a similar fate.

Both the king of France, and his queen, had to face the guillotine—a method of beheading people. What was the guillotine, and how did it become so closely associated with the French Revolution?
