HELICOPTER WARFARE

- 0. HELICOPTER WARFARE Story Preface
- 1. AMERICANS IN VIETNAM
- 2. WHY DID THE MISSION CHANGE?
- 3. LBJ DECIDES TO "GO BIG"
- 4. CONFLICT ESCALATES

5. HELICOPTER WARFARE

- 6. 1ST CAV IN COUNTRY
- 7. WHAT KIND OF WAR?
- 8. FLAWED POLICY
- 9. IA DRANG OVERVIEW
- 10. A FAILED AMBUSH
- 11. LZ X-RAY
- 12. BROKEN ARROW
- 13. DEATH AT LZ ALBANY
- 14. RESCUE
- 15. BRUCE CRANDALL
- 16. RICK RESCORLA
- 17. HAL MOORE

The concept of helicopters flying soldiers into combat zones is so common today no one gives it a second thought. Can it be done? Of course...it's done all the time. But that was not the case in 1965.

Following the Korean Conflict, <u>Lt. General James M. Gavin</u> had a vision. His 1954 essay, *Cavalry, and I Don't Mean Horses*, introduced the military to a revolutionary idea. Helicopters could make soldiers significantly more mobile than they had been in Korea. And if those choppers could be armed, the Army would have "highly mobile task forces with an improved ratio of fire power to manpower."

Gavin had a <u>great idea</u>. "Sky cavalry" soldiers could conduct air assaults never before possible. Instead of riding into battle on the backs of horses (like <u>Custer</u> and the 7th Cavalry <u>did</u> at the disastrous battle of <u>Little Big Horn</u>), "sky troopers" would fly into battle (like the 1st Cavalry Division would do, for the first time ever, at la Drang).

By 1963, the concept was being tested at Ft. Benning, Georgia. In 1965, the first air mobile division was organized and ready for duty in Vietnam. So were $\underline{\text{UH-}1D}$ helicopters (troop transports called "Hueys" after " $\underline{\text{HU-}1}$," the first model) and $\underline{\text{CH-}47}$ "Chinooks" (artillery and other heavy equipment transports).

Soldiers in Vietnam would soon develop a love/hate relationship with those <u>choppers</u>. While it was Hueys that took them OUT of <u>battle</u>, it was also the Hueys that brought them in. By the time the Vietnam War was finally over, America had lost over 6,000 helicopters and about 4,300 pilots.
