

W/ 46
February 18, 1963

Dear President Kennedy,
My brother, Specialist James Delores
McGeehan, was one of the many crew
members killed on January 11 in a
Viet Nam helicopter crash.
The crew reports at first said that
ammunition dumps were exploded later,
it said that all helicopter bodies were
due to malfunction of aircraft controls
due to malfunction of aircraft controls
controls would be to "normal people".
However, that's rather important that
we do a even case to know.

My own also brother visited the
May and the Marine Corps in 1961
immediately after the war, attacked
they arrived all during the war and
in some very important battles -
then from outside the Marine as soon as
he came all enough, and was missing
for a long time. During these war
years and more, all during the
Korean conflict we worried about all
of them - but that was all very
different. They were men that our
country were fighting and everyone
here knew that was our and brother
were going that done for their country
if our help did feel that point
and life for our country in and
they all doing and to a country
will help our country more and
hard of, and being shot at without
even a chance to get back in
another thing, also gether.
