A **narrative** essay is a story written about a personal experience. **Writing a narrative** essay provides an opportunity to get to know and understand yourself better. One of the best ways to reveal who you are is to **write** about how you became aware of something, gained a new way of seeing the world, a new insight.

Usually, narrative writing is categorized as **fiction**, which is based on imaginative events or stories that did not actually happen. The other category of writing is known as **nonfiction**, which would be writing that is based on real facts. This usually consists of newspapers, essays, reports, and other informative writing. However, some nonfiction can in fact tell a story, which would classify it as narrative writing. In the case of nonfiction, the story must be a true story with real people and events. Autobiographies All narrative stories have:

- **Characters - People of subjects of the story**
- **Plot - events that occur in the story**
- **Conflict - A struggle that takes place between people of events—a problem**
- **Setting - Time and location where the story takes place**
- **Point of view - Either it is told by a character or a narrator**
